

Building the future at Village School - Brick by Brick -

Did you know that the Village School has fewer technological updates (smart boards, in focus machines...) available for in class use than any of the elementary schools? And we have double the population!

Last year, in an effort to work toward the goal of equipping the classrooms with the much needed technological components that will allow our children to compete in today's world, the PTO created an opportunity for parents, community members, and businesses to invest in the school while leaving a permanent "mark" on the school in the form of an inscribed brick.

We are continuing the effort this year but with a twist. Due to the upcoming construction we will be creating a temporary "virtual" wall which will list all donor names on the PTO website. Once renovations in the front of the building are completed all names will be transferred to a "real" brick. **Last year donor contributions totaled over \$11,000**, allowing us to purchase 3 smartboards, 3 in focus machines, 3 laptops, and the carts and gear that go with them!

To assist in this ongoing effort, please fill out the form below and send it to the Village School (93 Village Street) Attn: PTO, with the check made out to Village School PTO.

Please reserve _____ bricks for my child, family, or business.

_____ \$50 minimum donation enclosed for an individual or family brick.

_____ \$100 minimum donation enclosed for a business brick.

Name(s) to be inscribed on brick(s):

Brick #1: _____

Brick #2: _____

Brick #3: _____

Your Name: _____ Phone: _____

Email Address: _____

Thank you for supporting the future of Village School Students!
